## **Director's Notes**

2012 is already turning out to be a very busy year! The clinic is busier than ever with our usual patients, our malnutrition clinic, immunization clinic, antenatal clinic, and more. We added a third grade to the school. We built a couple of sinks for our school children to practice good hygiene. We're doing more outreach with our ministry team, and we've started some construction projects to prepare us to hopefully partner with some larger organizations. All of this couldn't happen without your support! Thank you!  
Richard

Thank you Asheville Christian Academy and Ann Auerweck for the donations for textbooks for our school! We are always short of textbooks and exercise books and this was an enormous help!

## **Textbooks for the School!**

## **Featured Student**

Jenin Sukuta is one of the best students in our school. She is eight years old, in our second grade and lives at Segera Gate. She wants to be a doctor when she grows up, is already very fluent in English and is extremely well-behaved in and out of the classroom.

## One of Many Clinic Successes!

(Acting Head Nurse Esther treating Nalikiti) Young Nalikiti Jekuti Seketeti had a lingering wound with exposed bone near her ankle. The situation became severe, and our clinic intervened and she had a proper operation to remove the dead bone. Now she's receiving regular post-op care at the clinic and she's healing well. Due to the heavy workload at our clinic we now have three full-time nurses.

## Please Give today!

We're working hard to develop more partnerships for the future, but today we only have a few organizations helping us. Our survival depends on individuals who believe in our efforts to help the truly needy in Northern Kenya. Many thanks to everyone who has helped us provide health care, education, clean water, ministry, and assistance to the poorest of the poor!

Send checks to Segeera Mission, P.O. Box 7310, Carmel, CA 93921 or please donate via PayPal or credit card at the PayPal link. Thank you!

Many thanks also to our valued partners: **Bright Point For Children** that assists our school, the **British Army Training Unit in Kenya (BATUK)** that keeps our Bedford truck rolling as well as our other machines at the Mission, and the **International Medical Corps** for logistics for our malnutrition clinic.

## Sinks for the School!

Our students and teachers are very happy with the new sinks for the school.

## Construction for the Future

Already this year we've been preparing for the future. We reinforced the water tower above to hold a 24,000 liter water tank to increase our ability to provide clean water to the community. Demand for the water we purify is always increasing. We also built a mechanic's pit to better service our aging fleet of vehicles, and started work on our new office/two staff quarters building. As soon as the new office is complete, the old office will become a laboratory which will dramatically enhance our clinic's capabilities! Thanks to Mount Bethel church and Susie Fujinaga for the funding for the new building!

Elizabeth, Amina, Sengenoi and Faith Mumbi on the slab of our new office and two staff quarters.
